

# Purdue Hospitality Services

---

Elias Atkinson

## Integrity

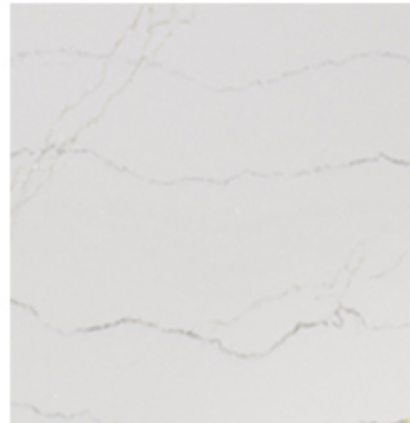

+The stained glass windows represent the mixing of students of all races and creeds within its walls. +The interior stone arches represent the ruggedness, sincerity and individualism of the students. +The upswept arches of the windows symbolize the youth and spirit of the Union.

Purdue Hospitality Services reflects this, integrating the customer into the Memorial Union's structure and design ideology. This modern proposal is seamlessly integrated within the existing space, paying full homage to the history and culture of the building and Purdue University.
